RE-CERTIFICATION / RENEWAL

Recertification is required to ensure that a commitment is made to keep knowledge and skills current through relevant work experience and ongoing education.

By renewing your certification timely, you will maintain your hard-earned credentials and continue to set yourself apart from the competition.

NII certificate holders must adhere to the instructions for certification renewal and meet all of the requirements of the NII program as outlined in this guide.

The certification renewal processing fees are due in full at time of renewal and are a one-time charge per three (3) year period.

The expiration date of all current certifications can be found on the certification (“wallet”) card and also through My Certification Portal.

RENEWAL PROCESS

It is the responsibility of the certificate holder to submit the recertification application and all applicable fees prior to the expiration date.

Approximately 3 months (90 days) prior to the expiration, you will begin receiving notices and reminders alerting you and providing instructions for submitting payment. E-mail notifications will be sent to the e-mail address on file with NACE Institute.

Failure to receive notices from NII does not relieve the candidate of the responsibility to contact NII to complete the renewal process.

Candidates seeking to renew their NII certifications must apply for certification renewal at least forty-five (45) days prior to the current certification expiration date in order to maintain uninterrupted active status.

NII professionals are encouraged to complete their certification requirements online, by using My Certification Portal, through the user’s NACE Profile. The application must be complete prior to submission. If the application is not complete, the application will be sent back to you to complete, which may delay processing.

Failure to complete the renewal process before the expiration date will result in a certification lapse and status change to “suspended”.

If a person’s certification is suspended for lack of activity, there is a 90-day grace period from the date of expiration whereby the candidate may seek to have their certification reinstated after they have completed the renewal application and satisfied all requirements, including paying the renewal and reinstatement fees in arrears.

Failure to complete the renewal process within the 90-day grace period will result in removal of the individual’s name from the certification listing and search feature through the NACE Institute website.
The Institute may also regularly publish the names of persons with lapsed certifications.

Please allow up to four (4) weeks for processing of your renewal application. If after four weeks, your application is not completed, please contact certificationrenewal@nace.org to check the status. You can also refer to APPENDIX to view the list of status references.

**REQUIREMENTS FOR RENEWAL**

Requirements for renewal consist of:

- Work Experience See Appendix A
- Recertification Application (subject to approval)
- Professional Development Hours (PDHs) See Appendix A
- Renewal Fees

**WORK EXPERIENCE**

The work experience requirement for renewals for all certifications is one and a half (1.5) years for the most recent three (3) year period. Additionally, some certifications have other requirements related to responsibility in charge.

Note: NII performs random audits on a substantial number of all certification renewal applications.

**RECERTIFICATION APPLICATION**

NII certificate holders must properly complete a recertification application every three years in order to renew their NII certification.

Along with contact and demographic information, an important part of the form is the acknowledgment of adherence to the Attestation.

All recertification applications must be submitted through My Certification Portal via your NACE profile.

**PROFESSIONAL DEVELOPMENT HOURS (PDHs)**

Professional Development shall be related to the certification and include:

- Corrosion-related courses or workshop seminars
- Technical Meeting Attendance
- Technical Committee Service
- Technical Community Service
- Technical Paper Presentation / Authorship
- Study of Corrosion-related Technical Papers
- Company-sponsored corrosion-related programs
- Training offered by equipment manufacturers
- Tutorials or workshops
• Speaking at a conference or chapter meeting of professionals
• Providing peer or technical review of a publication, book, or paper
• Subject Matter Expert (SME) work
• Other activity as submitted and approved by NACE International Institute
• Industry related webinars or online seminars or tutorials

Total hours shall be derived from at least two of the points above. All Professional Development counted must have taken place since last recertification for all categories.

DOCUMENTATION
NII certificate holders have the total responsibility for maintaining a record of professional development hours as it is related to certification renewal.

A log to help the certificate holder track professional development is available at www.naceinstitute.org. However, please note that when the certificate holder completes the renewal application, the professional development hours are required to be submitted through the electronic application. The log that is available is only to help in tracking the professional development hours through the certification period, but is not actually used as part of the application.

DEPENDENT PROGRAMS
Some NII certification programs are subsequent and supersede any lower level that was previously obtained. For the purpose of recertifying, only the higher level certification must be renewed. For example, CIP Level 2 supersedes CIP Level 1. However, a higher level CIP certification will not update a certification that is not in the coating inspector program.

Note: Not all certifications have higher levels that supersede the lower levels. If a certification holder has more than one NII certification, he/she may be required to renew multiple certifications in order to keep them all current.

It is the responsibility of the certification holder to renew all certifications timely. If any certifications are not renewed timely, the suspension and reinstatement processes will apply.

RENEWAL FEES
Certification holders are required to pay a non-refundable processing fee of:

• Members: $265
• Non-Members: $475

The fees listed above must be paid when submitting the renewal application, every 3 years. NII accepts payment in the form of credit card, check, or bank transfer.

- For more information, please refer to First Service payment policies.
- Refunds on renewal application fees will not be awarded on the basis of a denied application.

All fees listed are in U.S. Dollars and are subject to change without notice.
REINSTATEMENT PROCESS FROM INACTIVE STATUS

An expired certification may be reinstated up to five years following the certification expiration date.

In order to re-instate an inactive or retired certification, the below conditions must be met:

- The work experience requirement for an inactive or retired certificate must be obtained within the most recent three (3) years.

- The professional development requirement must also be met for each year during the most recent three (3) year period prior to the renewal.

After the deadline for reinstatement has passed (5 years), certification can be re-attained only by applying for initial certification as a new applicant and satisfying the current certification requirements at the time of application.

Note: Eligibility requirements and exam content are subject to change overtime at the discretion of NII. No exceptions are made.

Persons who reapply will NOT be reissued their original certification identification number upon meeting the requirements as set forth.

Should any inquiry be made regarding the certification status of a person whose certification has been suspended, the inquirer will be informed that the person’s certification under the program is inactive. No further information will be provided.

If a candidate allows his/her certification to lapse for a period of:

- 0-3 years, certification may be reinstated with payment of $100 reinstatement fee in addition to the renewal fees as previously described in the previous section.

- 4-5 years, certification may be reinstated with payment of $500 reinstatement fee in addition to the renewal fees as previously described in the previous section.

Publication of the names of persons with suspended or inactive certifications is at the discretion of NII.

Please Note: During the lapsed period, no certificate holder may identify himself/herself as a certified professional with NACE Institute. The name of the lapsed member will also be removed from the NACE Institute website.

See APPENDIX B.

ETHICS

All information submitted on a renewal application is subject to external verification. Renewal candidates who knowingly and willingly submit false information or forged documents will be reported to the NII Policy and Practices Committee for review.

Possible sanctions could include revocation of all certifications or barring from obtaining any future certifications.

INSTRUCTIONS FOR RENEWAL PROCESS

1. Visit www.naceinstitute.org. Hover over the “Certification” tab, and click on the “Renew My Certification” link on the drop down menu.
2. Click on the “Submit Renewal Application through My Certification Portal” link, as shown in the picture below.

3. Follow the on-screen instructions to complete the renewal application.

4. When complete and ready to submit with payment, click the “Submit” button all the way at the bottom of the last page.

To watch a video with additional instructions, visit http://www.naceinstitute.org/certification/renew-my-certificate.aspx or follow the steps above to find the videos that are posted in both English and Spanish languages.
APPENDIX D

PROCESS FOR APPEALING THE REJECTION OF AN APPLICATION FOR RECERTIFICATION OF A NACE INSTITUTE CERTIFICATION

*This same process applies for all Institute certification applications.

- The process for appealing the rejection of an application for renewal shall be included with the notification to the applicant of his/her rejection.

- To appeal, the applicant must submit a written appeal to the Certification Director stating the basis of the appeal and providing all information the appellant wishes to be considered. The appeal must be delivered to NII within thirty (30) days from the date of the rejection notification.

- The Certification Director shall consult with two qualified application evaluators who did not review the original application to consider the appeal within thirty (30) days of receipt of the written appeal. The Certification Director and the application evaluator will be provided with all previous review documentation. The Certification Director and the application evaluator may contact the appellant to gather additional information, if needed.

- A consensus of the Certification Director and the two application evaluators require a two out of three (2/3) vote to sustain the appeal. Should the appeal be sustained, the appellant’s application and supporting documentation are accepted and considered approved.

  - The only basis for sustaining an appeal is that deficiencies in the application and/or supporting documentation that caused the rejection have been eliminated.
